S. W. BOOTH, Editor.

CITY OF MILWAUKEE.

THURSDAY, JULY 24.

**ALL LETT. FR. MILWAUKEE** intended for publication, or on business connected with the paper, should be directed to **THE FREE DEMOCRAT, MILWAUKEE, WISCONSIN.**

All letters designed only for the eye of the editor should be addressed to **S. W. BOOTH, MILWAUKEE, WISCONSIN.**

**TWO THINGS NEEDED.**

There are two things vital to the future prosperity of our city, which seem to attract very little attention among our citizens—the necessity of more Harbor room, and the union of the termini of all the Railroads entering this city in one Depot, so that freight can be forwarded to Chicago without transhipment.

When the Railroads now in progress, shall have reached the Mississippi at three points, and Lake Superior at as many more, pouring in upon us the produce of the whole State and a large part of Iowa, of Minnesota and the immense fertile region north-west of Lake Superior, and the Great Western and Detroit Railroads shall have been completed to Grand Haven and be connected with us by a line of magnificent steamers, and the direct trade to Europe via St. Lawrence shall be in successful operation, there will be such a commerce concentrated at this point as few of our most sanguine business men can be made to believe. And how shall this immense trade—this swelling tide of agricultural products alone—without estimating our mineral and manufacturing products—find an outlet? Some of it by rail road; but by far the greater part of it by sail and steam vessels. Chicago is already suffering for want of Harbor room, and her people are existing about in vain to supply this great and ever-increasing want of a commercial city. The time has been, since we have been a resident of Milwaukee, when, at a comparatively small cost, a commodious harbor might have been made above Walker's Point Bridge, in the neighborhood of the Milwaukee & Mississippi Railroad Depot. But that time has gone by. But there is still room in the Menomonee marsh, west of the Menomonee Bridge and south of the Milwaukee & Mississippi Railroad, to form one of the most magnificent harbors in the world. There is ample room, the ground can be obtained at reasonable rates, and the city should secure it now, and thus guarantee its commercial prosperity for all coming time.

The necessity of a common depot for all the railroads terminating in this city, must be apparent to all. The Valley Road is soon to be finished to Janesville; there it has a connection to Madison, and will soon be stretching on to Portage. The Wisconsin Central will soon be completed to Whitewater, and be extended on to intersect with the Fond du Lac Valley Road. When these lines are finished so as to form connections to Portage and Fond du Lac, freight and passengers will seek transportation to Chicago, over roads which do not break connections, and which do not require the interruptions, delays and expense of carting passengers from half a mile to a mile, from one depot to another. Unless such a common depot is established here, an interior road, from Oshkosh and Fond du Lac, will be built, and if built, it will direct a great part of the trade and travel from this city. All the railroads are interested in this matter. The sooner the union of them all, in a common depot, is effected, the better it will be for their interests and the interests of the city. And as the city is so largely the creditor of these roads, it ought to take some action to effect such a juncture, if the roads are unwilling to move in the matter.

**POLITICAL PROSCRIPTION.**—The Washington correspondent of the New York Tribune, under the date of the 21st inst., says Mr. Colton, Clerk of the House, discharged Mr. Aterton of New Jersey, one of his Assistant Clerks, to day, it is reported, for having gone home after the adjournment on Saturday, and returned before the opening of the session to-day. The object of his visit was to attend a Fremont meeting. Mr. Colton is a Fillmore man.

**DEATH OF AN EDITOR.**—Benjamin B. Smith, editor of *The Whitehall (N. Y.) Chronicle*, died at the residence of his brother, in Westport, Essex County, on Saturday the 12th inst., of consumption. It is a singular fact that three editors of *The Chronicle* have died in little over three years. The first J. D. Blount, who died in March, 1855; the second, C. G. Skinner, who died in February, 1855; the third, B. H. Smith, the late editor, who died as stated above.

**CALIFORNIA GOLD.**—The receipts at New York, from June 1st, 1856, to July 21st, 1856, were \$21,000,000—\$2,000,000 more than for the same period last year, while the exports of specie to Europe, for the same time, have been \$3,153,540 less than last year.

The imports of goods into New York, this year, have been \$44,337,110 more than last year, and the exports of domestic produce and miscellaneous goods, have been \$9,406,424 more than they were last year.

**INDIANA.**—An American State Convention was held at Indianapolis, on the 18th inst., in which, about one-fourth of the counties were represented. There was a great deal of confusion, part of the delegates being in favor of Fremont and part in favor of Fillmore, *alias* Buchanan. Finally, a Fillmore electoral ticket was formed, and the convention adjourned.

**THE IOWA (Michigan) GAZETTE,** which had up to this time supported the sham democracy, has hauled down the black flag of Buchanan and Breckinridge, and raised the banner of freedom, inscribed with the names of Fremont and Dayton.

**BOT KILLED.**—A son of Mr. Joseph Lawler, about eight years old, was accidentally killed near Taycheedah, Fond du Lac County, on Tuesday morning last, by the upsetting of a pierce elector in 1852.

**A DAUGHTER OF MR. JOHN LOAN,** of Blacklick Township, Indiana County, Penn., was seriously injured, on the 18th inst., by a horse attached to a carriage in which she was riding, taking flight; and precipitating the carriage over a high bank of the Conestoga river.

## Message of the People's Governor of State.

FELLOWS-CITIZENS:

It devolves on me, at the annual meeting, to lay before you the condition of our County, external and internal. I called at the Advocate's office, to get the latest news. As the editor was absent, David said I could take the Chair, which was a little ahead of the telegraph, as the wires were gone in. But by taking some telegraphic fluid from a black bottle which David handed me, I got the news even days ahead of date.

The affairs of our County are considerably mixed since Barstow came in, as appears by the following liabilities of the old Board, who would do well to resign before any further investigation, as Barstow did.

### EXCISES OF THE OLD BOARD OF SUPERVISORS.

To E. Hart, Da.

All old debts for the poor.....

25 pair trousers at \$10 per pair.....

30 pairs vest, at \$15 each.....

Work on road between Jones' water mill and 2nd and 3rd, 20' 4" stamps, chopping 3 trees, and leveling one mound.....

Taxes, as the people would bear it.....

Two officers, one to steal hay and the other number, \$200 each.....

Taking the poor out to ride according to law, E. Hart and Bill Brundage \$500 each.....

Total.....

The present year presents superior facilities to the last for advancing our operations. And as we are true stuff, and not like the old Board—part John Bull, High Dutch, Low Dutch and Old Nick know what, we will adopt the latest Know Nothing system, and allow for the following expenses:

New bridge by E. Hart's shop.....

In proportion to various places not known.....

Steading in the four furlongs to be sufficient to build a steam mill square—\$1,000 each.....

Other offices, six or three, stealing town orders, \$50 each.....

Total.....

\$4,500 00

I receive the most cheering intelligence from the farming portion of the community on our river towns. For the last year, R. P. sent me my returns, viz: 90 bushels corn, \$50; 600 do. of potatoes, at 50 cents a bushel, \$300; total \$350, except one bag, which R. P. gave the editor for publishing notice of it.

New comers, who wish to settle, should go where R. P. recommends, from the Falls to Sunio, on the back road. If they stop fifteen minutes, they will never settle.

I would recommend more vigilance in the pine land speculations. The women in our sister towns are taking the lead of the men. But I would recommend them to be careful of their rights, as some likely young men may come along for them, school section, pine and all. However, if they succeed, I will charter a boat to go to Lowell, and get a load of old masts, and put them on every section of school land. It will be no small inducement for young men of good morals to emigrate to this country. I will take the editor of the Advocate through the various sections to see the old masts, and he will give us a leader in his paper. If he does not, I will punish him for the space of three weeks, by making him read his own paper, which is severe enough.

I carefully read the message of Illia Honor, the Mayor of the city of Green Bay, and I see the City Fathers have got some new blood in them, which is something strange to the old fogies who have nothing but age and Dutch progress. Our postal arrangements in Green Bay and vicinity, were in a bad condition, till I went word to the President, and he recommended me to try the Dutch, as he found them most extraordinary men. So I told E. Hicks, and he took one and fitted him out for a trial of speed with the Fanny Fish down the shore. I ordered him to take a canvas bag and put the mail in one end, and six of Klausen's Dutch briek in the other. And the Dutch Express ran with wooden shoes, and beat the boat three days at the place of delivery.

It is with deep regret I hear that Franklin Pierce is sick. He said he was taken when he was unprepared, and did not expect such an attack. I sent for Dr. Ayer, President of the State Medical Society, to examine his case, and he reported that Mr. Pierce was badly affected with the chills and ague, and disordered brain, and recommended that he be brought to Green Bay, where he could attend to him. By winding him in the Missouri Compromise, and giving him a wet pack with a Kansas blanket, he thinks he may yet be restored to reason, and be made to flourish in obscurity, like a Green Bay tree.

Given under my hand, at Ludington's Saw Mill, July 20th, 1856.

### BILL BURSTON.

P. S. Jim's 1,000 majority for Barstow, got out of liquor before election, and voted the other way. He must send a bigger supply next time.

### GERMAN FREMONT CLUB AT CHICAGO.

The Germans of Chicago held a large and enthusiastic meeting on Monday evening, and organized a Republican Club and elected the following officers.

A. F. Mueller, President.

Gustavus Leverenz, M. Boss, N. Eisenhardt, Vice-Presidents.

Chas Dandorf Secretary.

The Press says: Fearing the result of the meeting, the pro-slavery democracy called a meeting at the same time at the North Market Hall. They sent all the way to Rochester, N. Y., for a speaker, there being no German in the city willing to advocate publicly the doctrine of slavery extension. But few persons attended, and those who were present thought they would go to no more meetings of a like character. A German Democrat assured us that the imported speaker knew very little about the German language, and it was with difficulty his audience could understand him.

**ANOTHER IMPORTANT ACCESSION.**—Alexander Kays, one of the leading Democrats and most influential Germans of Missouri, has come out in a stirring letter to his fellow Germans, in favor of John C. Fremont. Kays has been a democrat for 16 years, and was a Pierce elector in 1852.

A DAUGHTER OF MR. JOHN LOAN, of Blacklick Township, Indiana County, Penn., was seriously injured, on the 18th inst., by a horse attached to a carriage in which she was riding, taking flight; and precipitating the carriage over a high bank of the Conestoga river.

## Mr. Burlingame's Card.

WASHINGTON, Monday, July 21.

Mr. Burlingame publishes the following card in the *Intelligencer* this morning:

"I am informed that the memorandum of a recent conversation of myself and friends with the friends of Mr. Brooks, has received, in some quarters, from its position as appended to Mr. Brooks' speech, an interpretation which does injustice to its real meaning and to my intentions. This is what I say and have said in relation to my speech, that I observed in it the rules of personal and parliamentary decorum; that I could not qualify or retract any portion of it, and held myself responsible to any gentleman who felt aggrieved by it. This is the only construction which I supposed would be placed on the memorandum, which my friends reduced to writing, that there might be no misunderstanding. But, inasmuch as attempts, not altogether unsuccessful, have been made to pervert its true meaning, I now withdraw it. And that there may not be any misapprehension in the future, I say explicitly that I leave my speech to interpret itself, and hold myself responsible for it without qualification or amendment."

A. BURLINGAME.

### Billy Brooks.

The New York Herald of the 23d inst., contains Mr. Brooks' narrative of the affair between himself and Mr. Burlingame, after giving the antecedents of the affair down to the acceptance of the challenge. He closes thus:

"He (Mr. Burlingame) requires me to meet him in Canada, a distance of 700 miles, by the mail route, a route running through the enemy's country, and through which no man knows better than Mr. Burlingame that I could not pass without running the gauntlet of mobs, assassins, prisons, penitentiaries and constables. I knew that I could never get to Canada, and that were I to do so, and he were to fail, that I never would get back; he might as well have designated Boston Common. His proposition is of a preposterous character that the public will appreciate it without comment from me.

"I have no further demands upon him, but should he be forced up to the point of making demands upon me, I will treat him as a gentleman and meet him at any convenient place, upon equal terms."

It is plain that Brooks don't want to fight. If he can knock a man down by stealth, his ambition is satisfied.

From the Montgomery (Ala.) Journal,  
HENRY'S BORDER RUSSIAN."

We give the following extract from a letter received by one of our correspondents, from a relative, who went out to Kansas with Maj. Bedford's company:

FOUR MILES SOUTH OF KANSAS CITY, Missouri, June 22d, 1856.

I have been through the "wars" in Kansas Territory, and am now perfectly tired out. I have been in one battle and several skirmishes, without receiving any personal injury, except a slight bruise received from my hand falling on me when he was killed from under me; but I received three bullet holes through my hat, and had a "tub full" of Sharpe's balls whiz around me. I have killed two of the "dogs" and Cosgrove one.

This is undoubtedly, the finest country in the world, without any exception; and if some of our wealthy slaveholders were to visit it once, they would emigrate with all their household.

The South ought to send 20,000 men here.

The South, well armed and prorisioned. If she don't begin to stir her "stamps," Kansas will be a Free State sure.

### ACCIDENTS AND UNUSUALS.

Mr. Wm. H. Stevens of Copper Harbor was very severely injured on the 4th inst., by the premature discharge of a pistol placed in a rock.

The most serious apprehensions are entertained in regard to him.

At the Northwest nine men were celebrating the 4th by firing charges placed in an old pump, when their cannon burst, and a fragment severed the arm of one of them almost entirely from his body.

At the Cliff two men were injured—one of them very severely—on the same day, by the bursting of a stamp head which had been used as a cannon in celebrating the day.

As the steamer Jas Carson was lying alongside the Superior waiting for passengers desirous of stopping at this port, last Sunday night a man named Kimball, approaching too near the Guard of the little steamer fell overboard and was drowned.

Mr. Kimball was a man aged 27 years, of temperate habits and well known here, having previously been a resident of our village, and what renders the accident the more distressing, is the fact that he had been married but a few weeks and that his young wife was with him and an eye-witness of the sad affair. He had upon his person some eight or nine hundred dollars in gold which probably, materially assisted in keeping him under the water. His body was recovered from the water on Wednesday morning, and the money found in a belt around his person.—*Onatogon Miner*.

MILWAUKEE COMMERCIAL COLLEGE.—Of this institution the *Sentinel*, of this morning says:

We are happy to learn that the Commercial College, established in this city by Messrs. Baylies & Lincoln, is now in very successful operation. The design of the Institution is to fit young men for the practical duties of life. It initiates them into the business of the Counting Room, and, by a thorough instruction in the science of book-keeping, qualifies them to take charge of the most intricate and extensive transactions. The principles, Messrs. Baylies and Lincoln, are familiar with the science which they teach, and give the benefit of their personal supervision and experience to every pupil. The College resembles, in short, a large counting room, where a multitude of clerks are busy with their separate avocations; each, however, studying the complete course. There are few accomplishments of as much practical value to young men as an easy and graceful hand-writing, a business style, methodical habits, and a thorough knowledge of book keeping. These can be readily acquired, with proper study, by a few months attendance at the Commercial College of Messrs. Baylies & Lincoln.

### Lend Us Your.

A Salt Lake correspondent of the *Mountain Sentinel* writes under date of May 26th:

Brother Mauga, of E. T. City, has found lead on the ridge between our city and Tool Valley. They brought several samples to the President, supposed to contain 60 per cent. of pure lead. We have a splendid sample of 34 lbs; it contains 90 per cent. pure lead. It was brought 50 miles south of Los Vegas, sent by John Steele. There is a mountain of it.

FROM MILWAUKEE TO MADISON.—A recent trip from Milwaukee to Madison, the capital of Wisconsin, has given us new impressions of the fertility of the region through which the Milwaukee and Mississippi Railroad runs, of the enterprising and prosperous towns upon its line and the loneliness of Madison itself, in its natural and artificial advantages. Year by year enhances in a wonderful degree, the attractions of its scenery and surroundings, and no eastern traveler entering the State should be compelled to return without seeing it, while those who reside anywhere about here, and do not pay it a visit, are very guilty. It is now the easiest matter in the world, for the M. & M. Railroad, reaching it from either Milwaukee or Janesville, affords the requisite facilities.

We are glad to observe that this road is greatly indebted to the wise management of S. S. Merrill, Esq., the Assistant Superintendent.

CHICAGO PRESS.

THE GERMAN AND FREMONT.—Southern papers are greatly excited about the Germans. The *Montgomery Mail*, after noticing their movement in Maryland, says:

"Look out for them next in Texas! They thundered out there already; the flood of the chinch bug and rust."

Corn is growing well, and we have been told

that it will yield a hundred bushels to the acre.

KANTONIAN BANK.—The La Crosse *Democrat* says:

The officers of this bank in La Crosse, are getting their bills ready for circulation.

Advertisements for the Daily Free Democrat, should be sent in, in order to insure them to be printed the same day, to be handed in by D. Booth, A. M.

## POLICE COURT, JULY 23.

Charles Lynch, drunk, fined \$1.

The case of the State of Wisconsin vs. Darby Carney, Patrick Cunningham and Dennis Bowes, for resisting policemen, was continued past the next sitting of the Grand Jury by consent—the defendants giving bail for their appearance at the Circuit Court.

Mr. Stark's new power press over the Police Court made such an outrageous noise this forenoon, that Justice Walworth was obliged to suspend business.

## Bontineau Society.

The exhibition promises to be a good one, though exhibitors are late in bringing in their articles. Spain has a large table of superior vegetables; Gilford has a fine display of roses and other flowers; Ferguson of roses, but as we go to press, the exhibition is rather in the future than in the present tense.

**BODY FOUND IN THE RIVER.**—The body of a German girl named Christiana Smith was found in the river this forenoon, near Hellstein's Warehouse. The girl left the house of Mr. Tuttle, in the Seventh Ward, where she was employed, on Tuesday morning about 3 o'clock, since which time, she has not been heard of until found floating in the river this forenoon. We learn that she had been somewhat scattered in mind for some time past, and she had frequently threatened to destroy herself. When found she had on no bonnet, nor shawl, but was otherwise fully dressed. No marks of violence were found upon her person, and it is supposed that she drowned herself voluntarily.

**ACCIDENT.**—The wife and sister of Mr. E. L. Button, were thrown from a buggy on some timber on East Water Street yesterday afternoon, and Miss Button was quite badly bruised about the face.

We have a printer in our office, not a year at the business, who knows so much more than editor, proof reader and foreman, that he is the occasion of many sad blunders. Yesterday he made us say, that the funeral of young Mr. Smith, was at the residence of Rev. Mr. Buchanan, against our positive correction to the contrary.

**PROVOCATE SHIPPED.**—The schooner *Provocate* cleared for Buffalo this morning, with 500 bushels of wheat and 250 barrels of flour; the Prop. *Blowis* for the same port with 5,000 bushels of wheat, 100 barrels of flour, 270 barrels of pork; and the schooner *Echo*, for Oswego with 11,000 bushels of wheat.

**THE CONCERT OF ABLAMOWICZ.**—Is postponed, and will be given in Young's Hall tomorrow evening. The press abroad speak in the highest terms of her performances.

**MORN. R. R. IRON.**—The schooner *Emu*, from Oswego, arrived here yesterday, with 1,056 bars railroad iron, for the La Crosse and Milwaukee R. R. Company.

**FOR COLLINGWOOD.**—The staunch steamer *Niagara*, Capt. Miller, leaves High's Pier on Friday morning, at 8 o'clock, for Collingwood.

**FIRST WARD SCHOOL.**—The first term of this school chose to-morrow afternoon. The scholars will perform the usual exercises in declamation, composition, &c. Patrons and friends are respectfully invited to attend.

**REAL ESTATE SALE.**—D. Fishbeck sold 30 acres of land, 2½ miles from Walker's Point Bridge yesterday, to Frederick Gross, for \$12,000—\$100 per acre.

**M. & W. B. R.**—The locomotive *Watertown* passed over the new railroad bridge at Watertown, with a load of iron for the Watertown R. R. It was the first passage over this new structure.

**PORTRAITS.**—At the entrance to Ford & Seeley's Daguerreotype Room may be seen an excellent photographic portrait of the next member of Congress from this district. Just such pictures can be taken up stairs there.

A freight train passed through the Lehigh Gap, Penn., on Saturday the 12th inst., a woman coming from behind a brush heap, threw her self lengthwise between the rails. The brakes were applied, but on the train rushed passing over the prostrate body, but had hardly passed when the woman jumped up, entirely unharmed, and went back into the woods. There was no way to catch her to the locomotive, and hence her escape.

**THE CROPS.**—Sparta Hatchet of the 16th inst. says the grain in this section looks well, and if nothing transpires to effect the crops, there will be raised in this valley this year a great quantity of surplus grain notwithstanding the general rush of emigration to these parts this season. The farmers are just commencing to harvest.

**THE THIRTEENTH REASON** given by the Richmond *Inquirer*, why the South should support Buchanan, must be consoling to his Northern supporters. It is this:

"He (Mr. Buchanan) never gave a vote in the interest of slavery, and never uttered a word which could pain the most sensitive Southern heart."

The New York *Mirror*, a strong conservative paper, has come out for Fremont.

**BEAR KILLED.**—A bear weighing 400 pounds was killed in Greenville, Outagamie Co., on 20th inst., by Wm. Root. Root had killed several hogs and a calf for Mr. R.

**ERUPT. TREES!**

**H. SPAN** has a large assortment of fruit and ornamental trees, like, tulip, flower trees, &c., which he will sell at a reasonable rate. Call and examine. He sells cheap, and always has his Vegetable Depot, Market House.

**MAGAZINES FOR AUGUST.**

**HARPER.**—Containing more of Porte Crayon Sketches; G. M. I., die Back; London Art Journal; Yankee Notions; late numbers of the Daily News and Punch; just received at WILSON'S.

INFORMATION WANTED

GEORGE MICHAEL HURLBURG, a man of 10 years of age, when last heard from, that I inform you of the great benefits derived from the study of your German Bitterns in my family. During the greater part of last summer, my son, aged two years, was severely ill, suffering from the Summer Complaint in the worst form, with the Summer Complaint in the worst form, for which a doctor prescribed, and prescribed by physicians and others were used, but did not succeed in getting him into the country, but it proved of but little avail. In a bottle of German Bitters in the house, I was persuaded to try the which, to my astonishment, entirely cured him. I have since given the Bitters to me time after time, and have had the greatest confidence in the Bitters, and get no hesitation in saying that my son should be without them.

Respectfully yours, JOHN W. PARIS,

VALUABLE STONE QUARRY FOR SALE.

The Underwood are desirous of disposing of their

valuable Stone Quarry, containing twenty or twenty-five acres of land, situated about one-half mile from the city of Milwaukee, on the Milwaukee &amp; Wisconsin Plank Road and the Milwaukee &amp; Mississippi R. R.

This Quarry contains an amount of stone sufficient to supply the city of Milwaukee with foundations and stone suitable for walls, measures from two and a half inches to twenty-four inches, for centuries to come. It is considered by competent judges to be the best Quarry in the State of Wisconsin.

We have tested some of our stones, and have become satisfied that they will make the best quality of Water

Lime.

We also have a valuable Water Power adjoining the

Quarry, in the extreme, being an elevated platf-

orm, about 100 feet above the water, with a fall of 20 feet

feet, giving a head of 100 feet, and a fall of 20 feet.

The water power is supplied by undulating

ground, and supplied with the purest water, is inferior, in its effects, to no other locality in the whole State.

At the point of the Quarry, we have a

fine building, which is
